Career Objective

Aspiring frontend web developer with a passion for both coding and creativity, dedicated to developing immersive and intuitive web applications. I am seeking a role where I can leverage my software development abilities to enhance user interaction while effectively integrating technology with an engaging digital interface.

Skills

- **Proficient:** HTML, CSS, Bootstrap, Tailwind, React, React Bootstrap.
- **Confidence:** JavaScript, Typescript, Express JS, Node JS, MongoDB, PostgreSQL, Prisma, Firebase.
- **Acquainted:** Mongoose, React Native Expo, Github, Ant Design, Daisy UI.
- **Platforms:** Node Module Package, Netlify, Vercel, Chrome Dev Tools, IMGBB.

Projects

❑ Tiffin Bati – Bachelor Food Service ([Client Site Code](#) - [Server Site Code](#) - [Live Server Link](#))

- Implement a secure user authentication system to manage user access and ensure data privacy and security.
- Create a robust admin dashboard with functionalities to manage user data, track subscription, update menu options, and handle customer feedback.
- We are implementing distinct dashboard panels for Super-admins, Admins, and Users to enable each role to manage their specific tasks efficiently and effectively.

Technology: Next JS, Typescript, Node JS, Express JS, PostgreSQL, Prisma, Axios, TanStack Query, JWT, ZOD, Supabase.

❑ Info Card – Social-Media Management ([Client Site Code](#) - [Server](#) - [Live Server Link](#))

- Simple homepage with secure authentication systems.
- After creating an account, you'll be redirected to a new page where you can effortlessly input your basic information and share your social media URLs. You can easily share your profile URL with anyone for seamless access to your information. Feel free to edit your information anytime, all designed with a focus on mobile devices.

Technology: Tailwind, Daisy UI, Firebase, MongoDB, Express, Imgbg, VCard JS, AOS .

❑ Fly With Me - Tourist Guide Website ([Client Site Code](#) - [Server Site Code](#) - [Live Server Link](#))

- In the home route, you'll find the three most recent services added. Click the 'See All' button to view all available services.
- You can provide your valuable feedback about our service on the service details page, although you'll need to log in first.
- Our MongoDB database stores all the information, and we utilize the Firebase authentication system for security.

Technology: Tailwind, Daisy UI, Hyper UI, Float UI, Mamba, Tailwinduikit, Tailwind-kit, Tiny Png, React Icons, IMGBB, React-Photo-View, Pexels, Undraw.
